

WAKE UP AMERICA

MY LAST ATTEMPT TO EXPLAIN, TO MY DEMOCRAT FRIENDS & FAMILY OR TO THOSE WHO WOULD NORMALLY BURY THEIR HEAD IN THE SAND, AT THE MERE SOUND OF POLITICS OR THE NAME DONALD J. TRUMP.

BY JESSE ROBERT, ATO-II, CAS, CCI, CPO

25 May 2024 to 12 Aug 2024

INTRO

As I put final touches on this write-up, at 3pm PST, on 30 May 2024. DJT was just convicted in a NY corrupt court, via fabricated charges, some not even known. What the repercussions will be are unknown to me. Two things are certain. It will certainly bolster his vote count and it ain't over until the fat lady sings.

There are a few major investigations that have occurred (see bottom page). And many, many more in the works. For some reason, despite me intentionally, hardly ever, forwarding my circle of folks ANY Trump related emails or election propaganda, or out of abundance of caution rarely

divulge my political views to anyone, people still automatically assume I am ranting and praising Donald Trump. This is not the case. This is not a phenomenon. It's by design. The media along with the W.H and FBI have specifically portrayed anyone that is in possession or displaying normal time tested patriotic symbols, has pride in their country, flies a Betsy Ross, Gadsden, or Texas battle flag and in some cases the American flag are labeled as a "MAGA Trump Supporter", insurrectionist, white supremecist, neo-nazi the list could go on. The main reason they were able to complete this subversion and were able to accomplish this, is a punk ass, communist liberal, intelligence analyst in one FBI field office, decided mix his biased political views, without supervision or division level approval, to create an intelligence product, which depicts photos of all kinds of patriot related symbology, most of which, are highly historical, as being symbols that ONLY members of the far radical right or fascistic Militias etc would display. This product was sent out electronically to multiple field offices (3-5). The director even lied during his testimony (which I watched more than once) to try and assure congress that this memo wasn't widely distributed to the whole FBI. A different field office created a similar memo attacking Catholics, authorizing illegal surveillance and another attacking parents at a PTA meeting, putting them on a terrorism watch list. Luckily, an FBI whistleblower came forward and exposed this crazy weaponization of the bureau, it was either Kyle Seraphin or Steve Friend, both patriots and recent, former FBI whistleblowers.

In fact, my perspectives stand regardless of whether he (DJT) gets elected or not. They have done everything short of assassinating him thus far. In all honesty, Trump Derangement Syndrome ([TDS](#)), although not in the [DSM-15 yet](#), is a very real thing that's likely affecting you and millions of other Trump haters, maybe even debilitating you. In short, it's the effect of having all forms of media screaming "Orange Man Bad" "Russia, Russia, Russia " and so much more for 7 years straight, or ever since he came down the golden escalator to announce his candidacy for president. Prior to that Trump was mostly well liked and respected throughout the world. All this current prosecuting and persecution of one single, 77 yr old man at every turn, and a president villainizing more than half the country that supports him as the top candidate. 71 counts or is it 91, how many years of digging and investigating by every agency there is? What have they found? Seriously, he's been indicted on more counts than Alfonse Capone. For people to believe such nonsense for so long should be embarrassing. Fani Willis sleeps with her boyfriend Nathan Wade, the "special prosecutor"(ethics), taking vacations and paying over a million for his fees. Judge's being completely unorthodox with rules and law procedures. Another Judge single handedly devalued his Florida property, the NY Judge's (Merchan) daughter accepted over 5.5 million, Cohen making millions off books, while he continues to perjure himself, Stormy's testimony was useless and more helpful to Trump, Judges not allowing vindictive testimony that could clear things up, this is a joke, a total sham. Banana republic or kangaroo court? I can see how all of us have fallen victim to this brainwashing since childhood. I mean look at Santa Claus. All kids fall for that, but eventually they know Santa is their parent or guardian. Some say TV is predictive programming. I haven't looked into that one, but look, some of you retired to Hawaii, an old salty dog, woodworking and carving wood to put your mind at ease, just like SA Gibbs (LOL). I guess some people stay in the dark literally their whole life. After I left Raytheon I had this down time and I figured why not put my investigative skills to work

on something for myself and personal sanity for once. I kept hearing more about random conspiracy theories that had since been proven true. I can't remember which, cause there's been so many. There is a new saying, at least new to me. "Most conspiracy theories are proven to be true within 6 months." Then there was J6 which doesn't add up entirely. So I picked a topic and I delved into the world of geoengineering, coming to the undoubted conclusion, that 'cloud seeding' operations are occurring in SB county, and possibly actual weather modification, which has been happening since at least the 60's. A little digging and bam, i got the truth. However, the gov will be the first to tell you, that, that's a tin-foil hat conspiracy theory. For background, I have been conservative most of my life, except, I voted for Obama during his first term because I thought America deserved a president of color at least once in her American history and preferably in my lifetime. He didn't succeed in earning my second vote for various reasons, primarily because I found the real scoop on Barry Sotelo (B. Obama), his Marxist Kenyan father, and upbringing around long-term family friends such as Frank Marshall Davis, Bill Ayers, Suzan Rosenberg all communist who helped launch his political career. Obama was also the protege of a communist operative named Alice Palmer. He made too many bad deals with bad people in the mid-east, not to mention Obama used so many drone strikes and then he killed an American with one, jihadi or not...anyway. The mainstream media apparatus (MSM), especially, is at the behest of intel agencies, Bill Gates, Soros, the Rupert Murdocks and others (whom control it) have managed to pitting Americans against each other, in every way they can, starting with race, but most obviously with politics and through various modes of socialist/cultural marxist ideology.

Note: That politics have managed weasled its way into every little thing these days? Starting with American sports like the NFL (Colin Kaepernick) amous kneel for the flag, from leaving our borders open for access for three (3) + years straight endangering all Americans, to Dylan Mulvaney and Bud Light, to covering up Hunter Biden's laptop that contained evidence of sex trafficking, extortion, bribery, treason, election interference you name it, it was on the laptop and the bureau let it slide and didn't even investigate the counterintelligence implications or compromise of Hunter, Joe and rest of the crime family. Furthermore, former Director of Intelligence Mike Morell, swore under oath and confessed that the 51 former intel officers, who stated, "the laptop was Russian dis-information" all lied and the story was concocted by current secretary of state Antony Blinken. Blinken was rewarded with the secretaries position by Biden. Blinken is a relative of Mr. George Soros who is one of the key players in destroying America. Blinken literally has been traveling the world destroying American diplomatic relations as our top dog at state. Recently we were kicked out of Africa & parts of south America. The FBI and Biden's take care of each other alright. The primary contact is likely Deputy Director Abbate.

"As you doubtless have guessed, we live in strange times. In presidential elections, especially when there is a party change, it is commonplace to see major or minor adjustments in policies to reflect the president's judgment or political party. It is not common to see the entire country in a state of disarray, witnessing drastic changes in a nefarious attempt to establish a new government and culture. Obama did it sub-rosa; Biden has done it flat out in our faces.

Misinformation, disinformation, or simply not reporting information is rampant in government and today's mainstream media and much of cable. Why are none of them reporting on vaccine deaths? Why do we have to rely on underground media? Why do these same outlets assume their reporting of past results of the 2020 election is accurate? When they look back and compare Biden's 'wins' in battleground states in 2020 with today's polling, are they being factual? Have we forgotten that Trump was comfortably ahead in the counting until about 11pm Eastern? Once the 'blackout' concluded, Trump found himself significantly behind. We will not forget or forgive. Our nation has been seriously harmed.

"It seems 'permanent Washington' has successfully put the questions of the last presidential election behind us. No one in the mainstream media (MSM) talks about it, or refers to it. It seems we no longer have investigative journalists in the MSM.

The 2020 election shenanigans are indeed behind us, but we will be paying for the results for decades.

Biden was chosen for a reason. *The globalist deep state needed someone they could control—a basically corrupt individual—someone who would begin dismantling the country and make it look like incompetence. Is there anyone who doesn't believe the country is a shadow of its former self?*

*If there is anything besides free speech that stands out as the foundation of our country, it is **right to know**. Except for secrets obviously kept as such for security purposes, presidential candidates love to announce their intention of being the most transparent president in history. The reality is quite different.*

*For decades, many federal government agencies, also known as Permanent Washington (AKA Deep State), have been involved in extraordinary covert activities, not for the benefit of our nation but for their own benefit. What we have done in our new book, *Beyond Treason*, is to expose these rogue entities and answer some of the tough questions everyone has been asking themselves. What happened with the 2020 election? Who was behind it? Was COVID-19 just another pandemic, or was it a biological attack? Is the Biden administration simply incompetent, or did they open our borders to allow an actual invasion? Does this president consistently ask us to ignore what we see and only believe what he says?" -Source: **SUA-Beyond Treason***

The big mistake was and still is, the bureau let a CCP ``captured elite' become president of the United States of America, likely that was the plan. Please see representative James Comer's investigation. Our congress is toast. There's no longer two parties to ensure checks and balances, it's a "Uniparty " which is how so much garbage gets passed in the house. The 'Republicans in Name Only' (RINO's) are the worst of all of them literally playing for both

teams. Very few congressmen/women (←**that's commie** 😬) actually represent their constituents. Very few reps actually do what's in the BEST interest of the people. These reps make deals with the lobbyists left and right and a good portion of them have been coerced, and blackmailed in exchange for their congressional vote. You know, it could be anything like "we have photos of you from Epstein Island" or any other place where pedophiles congregate to fulfill their disgusting kiddy desires. The blackmail could be something much less incriminating. Former Congressman Madison Cawthorn, a young (26), disabled and very Christian representative told [everyone about](#) the sex parties he was invited to while working on the hill. China is to blame for most of that congressional bribery, but I'm sure other Nation state actors participate in these types of crimes, as do independent entities with three letter acronyms. The problem now is that the democratic party my mother once knew, is no longer in existence, if it is, it's a small quiet minority. It has been completely hijacked from you (whom I write this for) by the communist party by the Islamist Front and other Marxist ideologues. There are openly Marxist and Communist Forces working both against and inside this country (USA). Despite the obvious state actors like China, Russia (Cuba), Iran, N. K, Qatar there are several ideological plays for CONTROL at work. Our VP Kamala is an open communist. All this bullshit, nonsensical talk of there being more genders, than the two, that GOD discussed in the bible is horse shit. The same two genders (Male/Female) as discussed/taught in my 12 years of basic, general education (real science) and Catholic school CCD class.

Diversity Equity and Inclusion (DEI), Hate Speech, Thought crime, social media censorship, attacks on faith & traditional marriage, Critical Race Theory (CRT) in elementary schools, erasing our history (Lincoln Project), tearing down historical statues, grooming school kids with sexualized material and kink/drag shows at public libraries, constant, consistent erosion of 2nd amendment, defacing historical landmarks, FBI/CIA infiltrating/censoring U.S people on SM (twitter/FB), mass attacks via all fronts on Christianity, Public/Private Partnerships..... are ALL indicators and symptoms of "[Cultural Marxism](#)". All of the domestic terrorist rioting during the summer of love/[George Floyd](#) (2020), burning down the country was all part of it. Kamala encouraged rioting and helped bail them out of jail (ANTIFA).

BLM/ANTIFA/AnarchoCommunist/Militant Transgenders in conjunction with CCP connected orgs like the Chinese Progressive Society, Freedom Road Socialist Organization (FRMSO) mixed with Open Societies Foundation, TIDES Foundation, Rockefeller Foundation, William Ayers of Revolutionary Communist (RevCom) (former Weather Underground) and NGOs such as National Endowment for Democracy (NED) and so many others, were all waiting for a U.S racial incident they could easily manipulate and use as a hot, political, racial, catalyst to spark national outrage. [George Floyd](#) besides being an underclass minority American, was also (partially by choice) a drug addicted criminal who unfortunately died of an unintentional, self-inflicted, drug overdose, while in police custody. It saddened me to watch him die that way (via video), but life goes on in this big, sometimes shitty world. There's an innocent cop fighting for his life in prison and several others fired for doing their jobs and being at the wrong place at the wrong time. Their lives are now shattered and ruined. I believed what I saw when Floyd died

just like everyone else. Chauvin is still in prison even after the truth was released? Does this country really right its wrongs? Apparently only when it serves the narrative.

BLM is an openly marxist run radical organization run by Patrisse Cuellars and Alicia Garza and they have openly stated that they are "[Professionally Trained Marxist](#)". They were heavily influenced by Susan Rosenberg who, like Bill Ayers, was a member of the Weather Underground in the 70's. They have dozens of spin off groups all interconnected to Islamist and CCP orgs. If I were to list them all, there would be an additional 3 pages of text here. Yeah, everyone fell for that shit too. Of course there was no correct answer to the "BLM" statement being made, and even an innocent white guy would get caught with his foot in his mouth, tongue tied, anytime they offered an opinion on the subject, because the objective was chaos not LOGIC. Of course black lives matter, and so do brown, yellow and white lives. Not to mention one of the folks over at BLM purchased millions in personal property, one hired her brother and paid him millions for 1 year protective services, all this while using charitable donation proceeds. They couldn't account for spent funds, the investigation likely headed by the DOJ swept under the rug to avoid further PR damage. All of these groups use 501 3c status to hide, transfer, wash funds associated with nefarious and in this case subversive activities. Of course none-of the funds donated went back to better the black community and hundreds of black owned businesses and properties were burned and looted during the rioting of 2020 all supported by democrats. In my mind, this amount of "No accountability" is Anarcho-terror.

The Washington D.C office of the federal bureau is run by marxist(Dep. Dir Paul Abbate), in particular the Counterintelligence division as was former bureau director James [Comey](#) and former agency director [John Brennan](#) who once [voted](#) for Gus Hall, long before my time. And the infamous James Clapper. Why weren't these communist bastards ferreted out during the background investigation process? It (commie/Social/Marxism) has permeated and infected every aspect of our society and major institutions, and obviously when it sits at the head of your major intelligence apparatus like the bureau and agency we have big problems in these intel agencies especially with the dual hat that the bureau has being the top federal law enforcement agency and top Domestic Intelligence agency at the same time.

I won't elaborate much, but Secretary Alex Mayorkas who heads DHS, has been utterly and completely derelict in his duties to secure this country's borders and to uphold his oath of office. He should be jailed. The worst part is he reports directly to sleepy Joe and all he has done is both calculated and intentional, he's highly likely a marxist also.

I've personally witnessed dozens of times now, of very left leaning biases that exist, even coming from one of my instructors and director of intelligence analysis. When the actual 'analyst' provides **biased or politically motivated** analysis or assessments to our leadership or customers, it has the potential to be catastrophic, resulting in poor decisions by the 'end-user' of the intelligence product or if we are using marxist terms "Stakeholder".

This is especially true with geopolitical analysis where regional decisions must be made based on our products, but also bleeds into tactical analysis where counterterrorism assets are utilized. I've had to take 4 classes on "personal biases" and how to recognize and avoid them. I only mention this because, this is why Trump used private intelligence firms instead of relying on the CIA when in office. And yes, some of these private firms (including CTG) have significant capabilities, sometimes more than other members of USIC. In fact, he and other republican candidates and think tanks have discussed a complete reorganization of CIA and others within the 18+ intel community members including less funding, which is why most people who work there passionately hate Trump, no matter what. They were walking on eggshells his whole administration because their jobs were on the line. Trump wasn't about to have a repeat of Saddam Hussein's WMD" in Iraq. Or be led astray. He already had half his staff (deep state) working against him at every turn. That worked out really well (Gulf War), Iraq now being controlled currently by Iran who still has a few American hostages via HAMAS.

On that same topic our military services are TOAST. It's been recommended by 'some' that all officers O-6 TO O-10 especially flag officers be forced to retire because they are all WOKE. When DJT was in office he directed, I think, Gen. Milley to withdraw all forces except maybe 500 from Syria. Someone in the chain of command lied to the president and said all had been successfully removed, when actually, there were still 2k troops deployed there in harm's way. To me disobeying a lawful order and lying are sin and are not very good or acceptable characteristics of a U.S Army military officer. Milley also communicated what our nuclear response would be to China to our adversary. This completely undermined the U.S ability to capitalize on the surprise factor, if it was required. The military now teaches and imposes this bizzare communist ideology throughout the ranks. Caucasian junior NCOs are being taught that they are solely responsible for past historic acts of racism (done by ancestors) even if their ancestry has no past connections to slavery and they are being trained to 'feel personal guilt' and shame about oppressing minorities, in particular, their black brothers in arms. Gee, I wonder if this would cause any future hostilities amongst the ranks. This is also what they are teaching young caucasian adolescents in elementary school (CRT). It is now "taboo" to be patriotic! All patriotic folks are BAD and should automatically be lumped in as "Trump Loyalists". I personally do not know how to be UNPATRIOTIC! How can any military unit be successful without 'esprit de corp' ? This is ALL intentional so as to undermine U.S forces from within. They are sabotaging our armed services so they'll be dysfunctional and ineffective should a battle arise and doing so in the name of racial equality. Perhaps also shaping them to be weaponized against the people at some point? Maybe Trump supporters? You know all the 'Insurrectionist' .(LOL)

They used the vaccine mandate to force volunteer patriotic armed forces members out of service (thousands) and to bolster all the fems, freaks. Total purge of patriots. Many of our future elite forces like top gun fighter pilots have been forced out in the name of DEI. Some of these pilots already had millions of dollars invested in their training only to be told... You are white, and won't get vaccinated and we don't like your patriot bumper sticker with Gonzales flag.... so bye bye. Recruiting is also WAY down and retention is a JOKE unless WOKE (shit I

should be a rapper). The current commandant of one the [pilot schools](#) in the [AF](#) or similar position, has set 'goals' of reducing the number of qualified white pilots and increasing minorities numbers. I personally do not believe racism is justified in ANY form. Whatever happened to that guy...hmm yes.... Martin Luther King Jr ? I seriously almost NEVER hear his name or famous quotes anymore. Interesting, but it's because MLK ideals don't fit the narrative and goals of the communists. We all know communists hate religion and MLK was a devout Christian . Equality is a different word than "Equity", the latter, much more in line with socialist efforts.

I have never served directly in the U.S. armed forces, however I was afforded the opportunity to participate and receive training in the U.S. Army JROTC program for 3.5 years and Air Force auxiliary as part of the Cadet Corps. Our Senior Enlisted Military instructor SGM G. Montalvo ALWAYS reminded us cadets (especially during a brawl) that teamwork is essential and a must, and that, "The U.S. Army doesn't see black and white, brown or yellow, the U.S Army only sees one color, that is the color of your Uniform-The Army sees GREEN only!" He would preach "We are an Army of One". I was part of many simulated maneuvers, battle drills at Fort Ord, Ft. Hunter Liggett. In the field we used Vietnam era M-16 A2's with blank adapters, later simunitions exercises down at Camp Pendleton and later war-sim, speed ball using paintball markers against 19th Special Forces Group in Santa Maria so I've spent a little time in the field with the guys and lived in shitty condemned barracks from WW2. I know more, specifically from friends that did serve, that actual 'enlisted culture' can be rough on its own and racial at times. I know at several points in history there was segregation and a lot of vitriol and bigotry later on. I also know times have changed and are 100% different although nothing is perfect. I also know that when shit is hitting the fan in battle, you don't have time for bullshit personal opinions, and when your life literally depends on the guy next to you on the left, right, front and back performing his duties, it is HIGHLY unlikely, that race is a prominent issue, let alone a consideration. Most, if not all enlisted partake in the art and gift of humor, comedy, laughter, clowning and down right making fun of each other's differences to create an acceptable atmosphere, pass downtime of mundane post, but more importantly to keep each other at ease, bolster morale and to achieve set mission objectives. There will always be some prude, not many though. In my opinion this should remain the practices of all services in order to continually recognize our differences all while fostering teamwork and solidifying camaraderie. Alright enough time spent there, moving forward.

The professors at the majority of our higher learning institutions from [Harvard](#) all the way down to little old Santa Barbara City College (SBCC) have been indoctrinating our youth (for at least a decade) with this cultural marxism. Students K-12 are being brainwashed also. The education system is TOAST also. We all have seen or read about the ridiculous responses from university leadership with regard to the Anti-semitic actions of many students against other Jewish students in the wake of the October 7th Israel attack and subsequent military response by the IDF and Mossad.. Pathetic WOKE. All these protests are supported by the previous organizations and hundreds more directly linked to Hamas. Such as Students for Justice in Palestine (SJP), Jewish Voices For Peace, USCPR, Code Pink and [many, many others](#)

The U.S “Cadet Corps” and ethos that I personally grew up indoctrinated in, is gone. [Westpoint](#) and other service colleges, where many future U.S leaders come from, have been co-opted and have gone [WOKE](#) taking out the words **Duty, Honor, Country** from the mission statement.

Then to compliment that bullshit ideology we also have the Islamist crowd who have also in conjunction with cultural marxist, believe they can overthrow the government using soft jihad, and by infiltrating the same institutions, but also infiltrating other institutions like religions, such as Christian and Jewish communities, utilizing the pretext of "Inter-Faith" services and meetings its all bullshit. Soft jihad aka jihad by the pen not the sword. Shit what am I saying? The damn POPE is WOKE and people are furious he's putting the Climate Agenda and Gender affirming first, there was also a recall of all vatican funds to be reallocated (Great Reset). They've built close to 4,000 mosques in the U.S in less than 20 years. Minnesota or Michigan? is almost fully overtaken, maybe, I can't keep up with all this shit anymore. Their local government is full of Islamist including Attorney General Keith Ellison, a former openly Islamist congressman. I think he's also a DSA or CPUSA member.

To be clear, an Islamist has only one major goal and that is to foster and spread Islam everywhere they can and to establish an ‘Islamic Caliphate’ or an “all muslim run society” where Islam is king and Sharia law prevails. They'd like all of us to convert to Islam or pay the kafir/infidel jizya (tax). The leadership of the Islamist, derives from the Muslim Brotherhood. MB created HAMAS, created AQ and many others. MB operates in the U.S, U.K, Canada, Egypt, Qatar and more. Actually, let me be clear. Harakat al-Muqāwamah al-ʾIslāmiyyah ([HAMAS](#)) is the “Palestinian Chapter” of Ikhwan Muslimin the ([Muslim Brotherhood](#)). So yeah by proxy all these U.S based pro-hamas groups work for MB.

Most and maybe more importantly, pulling a lot of strings is the WEF and Klaus Schwab who recently will be resigning his position over to his daughters or family as of yesterday. Of course Klausy poo's father was a bonafide card holding member of Hitler's Third Reich, that's enough to throw up some red flags about a person. Other prominents at [WEF](#) include Canada's Justin Trudeau, Ms. Maria Bartriamo, Bill Gates, Janet Yellen, Joe Manchin and many others including up and coming members they list as young global leaders. The WEF would like the U.S to cede its sovereignty during future pandemics. This would allow the WEF to control U.S. lock-downs and pandemic protocols and vaccine passports. U.S state governors or other U.S officials (such as CDC) would have NO say on what occurs here. Does that sound remotely American? The U.N at China's persuasion, with majority U.S funding, planned, orchestrated, and facilitated the invasion of the U.S and Europe. That's a wrap. Over 50k Chinese nationals, almost all male and military fighting age, hardly any kids or women. Same with other ethnic groups from adversary countries. Can you say counterintelligence and counterterrorism nightmare?

What I'm ranting about is our republic is falling hard and quick and the current occupiers of our government are ceding and capitulating to our enemies (WEF/China/radical Islam) because

they all want to bring America to her knees. Every single fucking enemy America has acquired in the past is now seeking a piece of the revenge pie. UN, WEF are all globalist organizations created by the top old rich families like the rockefellers.

If we don't immediately pull our collective heads out of our asses. There will be NO more [Republic](#). As we have known it. Everyone likes to talk about "[our democracy](#)". We are supposed to be a [constitutional republic](#) with democratic processes ...that's it. All these marxist politicians are just getting us used to actually having a "democracy" and using the term. An actual full democracy is lunacy aka banana republic. When these politicians scream on TV about "losing our democracy", they mean losing marxist control or complete control of their planned and implemented chaos. The constitution is being defied [everyday](#) in any way possible. By the way the word democracy wasn't used once in the Declaration of Independence. Didn't my relative Ben Franklin say something to the effect of "We've provided you a Republic, if you can keep it ! " right after signing the declaration?

The constitution and "we the people " are literally the only thing (and NCS) standing in the way of the Tyrannical, Globalist, Authoritarian, Totalitarian, Communistic rule we are under currently by sleepy Joe who is not really running things and Gavin Newsom of commiefornia, who'd like creepy Joe's job as president. We have Canadian Justin Trudeau who is a full blown dictator who worships CCP Xi Jinping more than Newsom, Bill Gates, and Zuckerberg (all China sellouts). We have an invasion at the Southern Border not much better at the northern border. Millions of unvetted people are roaming our streets. A good chunk of these people have NO intention to assimilate to our way of life, some released from South American prisons, and insane asylums (Venezuela). Look at what's happening with Europe specifically France, Italy it's all beyond fucked up. This is all done planned, coordinated, funded and facilitated by the United Nations, a globalist organization much like the WEF. Speaking of the WEF, look at the chairman or secretary whatever they have headed by IRAN! They just had a day of silence and bowed their heads for the "Butcher of Tehran" Ebrahim Raisi who mysteriously died in a copter crash! The U.S also put their flag at half staff in his honor. China also has heavy influence on the WEF and UN. Did I mention hundreds of UN employees are members of HAMAS? True story.

The UN planned for us to get invaded and provide services to the illegals while breaking the law. They are using our own tax money to fund it along with thousands of NGO including the Red Cross, Catholic Charities. Again this has nothing to do with Donald Trump except all these enemies of America fear Trump.....why is that? Because he's an outsider. Not part of the deep state or bureaucracy. One man, they yell and tell us he is, 'the biggest threat to our "democracy"...Key word they want you to use..and all his supporters like the J6 participants (some totally innocent) some credentialed journalists are still sitting, rotting in ghetto ass D.C jail, being politically persecuted in America. The weaponization of various organizations like the agency who should not be operating in the U.S, is in fact manipulating many things especially the media narratives. Every major news outlet has a retiree or former agency intel officer on payroll from some intel agency to feed the current narratives. The FBI targeted the Catholics all provable thanks to whistleblowers like former FBI agents Kyle Seraphin and Steven Friend.

They targeted school board meetings like PTA and put parents on a terror flagged watchlist for going against the grain at PTA! They raided a former U.S president's home (Maro-Lago). The bureau was complicit in instigating the J6 (first ever) insurrection without one single weapon found. Investigations are showing at least 100 fbi agents were present at J6 dressed as Trump supporters. How about the double standards with the bureau and DOJ? Joe leaves TS classified unattended in his garage where anyone including his son Hunter can access it, in a cardboard box next to the corvette. It sat there at least since he was the VP or Senator, neither of which authorized him to take home TS classified. He also had several TS docs sitting in his office located at the Biden/Penn Center, which is directly funded by the CCP and is also occupied by hundreds of Chinese foreign visitors each year, several of which are likely clandestine operatives. I'd say those docs sitting unsecured are fully COMPROMISED.

Then you have Trump, who had a designated secure area for his papers and by authority of the President had authorization to have the docs and to declassify them if so wishes. Joe is already scott free, the investigators (HUR) excuse for not pursuing the case is he's an old man, so then why is he holding office?

As is thoroughly documented by author Peter Swietzer in his books that I have attached (Red Handed, Blood Money), among others Joe Biden along with many other elites and many congressmen and women are called "CAPTURED ELITES". Meaning they are locked into deals with adversary nations by extortion, or blackmail and more.

There is so much much more I can't possibly write it all out in a few days especially being as long winded and detailed as I am. To get it all here for you to understand would take forever, that's the reason YOU and a shit ton of others are SO duped into hating DJT. I don't blame anyone for disliking some of his characteristics, there's plenty for anyone to not like, but I'm willing to bet 20 bucks that 75 % of what you've heard over the last 7 years is either a lie, mis-information, dis-information, manipulated, half truth or any combination thereof. However, my mother's personal disgusting favorite "Grab em by the Pussy " is nasty and foul, and he really said it, but when he spoke, it was men's locker room banter, not directed at anyone, which is acceptable in my book given he's a 70 year old man. People need to get over their feelings. "Oh Orange man made a mean tweet"...Jesus. Fucking pussies! Don't read his tweets, losers. Maybe not so easy for a gentle lady to accept and forgive. He is a man and he's not perfect by any means but he's the exact opposite of what the media would have you believe. He's a god fearing man who left the whitehouse worth several million dollars less than when he started. If he were not running again he wouldn't have 71 or 91 indictments against him, they'd simply let him be. Many say he's egotistical and self absorbed... This is true and he may even be a little narcissistic or sociopathic. The psych books say those are some key characteristics of many past world leaders and wealthy people because it takes having some of those traits to make it big. You say he won't leave office peacefully, but history shows he already has once before. Why not again? Because he's gonna turn into Hitler...LOL The truth is they are scared to death that 'they' democrats will be held accountable for all the shit they have put everyone through. Lies upon lies. This country is upside down because of democrats. Why would a man that

cares so much about what others think, and that's been literally attacked by everything the U.S government can throw at him, even an assassination attempt why attempt to come back for another 4 years of media lies and fabrications and torture of his family, defamation and again, be less RICH? Did you know besides not committing the U.S to any new foreign wars (first in long time), DJT refused to accept a salary for his position as president? Who just held a full Rally in the BRONX, New York with thousands of Indian, brown, black, asian latino turning out to support him (estimated 18k + turnout thousands turned away due to lack of space)? Such a cluster Fu%% for AOC's NY district who attempted to counter-rally. They ended up deploying that paid Hollywood operative, big mouth Bobby DeNiro to read a pre-written statement"Ohhhhhh he will never, never leave office." referring to Trump. Just setting the stage for more propaganda. He can only serve 4 more years and he's 77. Democrats know they won't hold office for another 16 years after our country is whipped back into shape, because even Dems are voting conservative these days. I wonder what dirt they have on Deniro that inspires him to spew bullshit so often? All these Hollywood assholes must go along with the narrative, some are forced to comply, some provide political statements out of loyalty alone.

It's time to wake the fuck up. He's running to try and save what's left of our country! If it means saving what's left of the country and MAGA Make America Great Again compared to the corrupt thing we have going on now where the whole world views the U.S as weak ass bitches with a horrid weak leader, they will (world) continue to act out the way they are resulting in many deaths. There are 144 countries involved in low-intensity armed conflict around the world. Many would not be, if U.S leadership were different. Yes, even our Department of State is fucked with Tony Blinken at the helm. He is a relative of George Soros. So just like ALL of these SOROS elected district attorneys that have been strategically placed across the U.S, I.E George Gascon (LA), SF, NY many others. Soros paid to have them elected, to NOT enforce the law, so as to cause complete mayhem and chaos in democrat led cities. People are getting cut lose NO bail required for discharging firearms, rape, assault and more. He's also at the behest of WEF. Again they are marching the U.S right off a cliff. These pro-hamas , pro-palestine protesters are just getting started. Thankfully everyone is under investigation, unfortunately with a weaponized DOJ, FBI, CIA there won't be anyone held accountable anytime soon.

Trump is the one in a shitty situation. He will be charged with officially draining the swamp of these corrupt treasonist people. People will need to go to jail. The people will demand it.

The democrats and woke media will further demonize him, make him look like a FASCIST or NAZI or RACIST for cleaning shit up..... the Dems 3 favorite names to label ANYONE. The democrats will BURN down the country before they have to answer for any of these blatant treasonist, subversive actions that are far beyond regular politics. Again this is not about DJT. Before you assume I'm a Trumpist you should look into everything I've said here. Mind you, can't trust the majority of 'fact checkers' on the internet most are paid for to produce incorrect outright lying answers. You can trust a lot (not all) of independent media and investigative journalists.

NO, DJT is not a savior. But he's the only current solution to an absolute immediate, dire problem. He knows better than anyone what needs immediate attention in this country. "If a New Yorker can't fix this, nobody can." Hopefully this time around he'll hire and surround himself with loyal and correct people that are at the top of their game.

I really do come in peace with this letter and no matter what you choose to believe, I'll still care about you, and cherish good times. However, could you live with yourself, if you didn't investigate further and seek the truth, whilst turning a blind eye to the fall of America? It's literally the kids' future. Do you want your grandchildren to be free as you were as a kid? I've learned very quickly, sometimes politics is like choosing a football team and it becomes more about long standing tradition and dedication to the team. This is no longer the case. This is plain and simple. This is time to jump ship. Get off the X asap! Pull the rip-cord. Change jerseys. Bail the fuck out! GOOD and Evil. A democratic constitutional Republic that follows the constitution or an Anarcho-Islamist Communist Revolution. It's an easy choice for me, my daddy went to Nam to stop communism from spreading around the world (not by choice lol). Here, I am enjoying the fruits of his and hundreds of thousands of others' misery, and 60k + U.S deaths later. Here it is one day, post memorial day, and I'm finishing this letter in hopes to change a few hearts and minds of my very own countrymen. As a general rule I don't associate with communists, marxist etc and yes that's just part of my code and programming. If, after you've done your own independent investigation, you still find what I have said to you here to be fanatical, dishonest, delusional or A CONSPIRACY THEORY, whatever label you choose.....It's simple.

That was my last installment. Here's as update as of 07/30/2024

Let's see. Hitting rewind Joe Biden severely lost a debate with DJT that was aired semi-publicly hosted via CNN. All types of stipulations were placed by the Biden regime. Trump agreed anyway despite odds not in his favor. They couldn't hide Joe's inability to respond coherently, everyone saw his lack of cognition that had been nefariously, poorly, hidden from the world these last three years. Democrats and others demand he step down as the nominee he refuses. So then everyone is behind him even though there's no way they'll have him again so they turn on him, he disappears for 6 days, then contracts Covid as a cover to avoid public statements. Then a digital letter of resignation appears with no presidential seal and a signature that doesn't seem authentic. I guess I left something out. On July 13th, 2024 former president and potential future president almost had his life taken at a rally in Butler, Pennsylvania. The failed assassin, allegedly a 20 year old ANTIFA member, but being portrayed by media as a Trump supporter(confirmed false), had his cranium enclaved by a ESU counter-sniper. Before he was shot he rattled off 8 shots at Trump. Audio/video evidence is being analyzed by public entities because there is NO trust for FBI, DOJ, SS, DHS etc by the public. Agencies are pointing fingers at each other. Its been confirmed that they were aware of this threat 26 minutes prior possibly an hour, but that they lost visual on him. Suspect had been previously identified utilizing a range finder used mainly for competition shooting, game hunters, and police/military/terrorist snipers, this was dismissed as normal behavior by SS. The Secret service director(Kimberly Cheatle) finally resigned and admitted some of the security failures, which were far too many to

be coincidental. Several career special operations snipers come forward to give analysis. Two of them are congressmen, Rep. Eli Crane and Rep. Cory Mills who's service record is questionable. To say that some punk, untrained, 20 year old was permitted close enough to punch a hole through DJT's right ear and barely missed totally eliminating him, is an EPIC failure on the part of his protection detail. Due to this, an innocent bystander was killed protecting his loved ones. His name is Cory Comparitore (SP?) was a retired volunteer Fire Chief just trying to have a good time at a rally with family. There are two others critically struck by gunfire and recovering. The internet is propagating conspiracy theories due to the lack of communication and transparency being shown by SS and FBI. Below are excerpts from Sam Faddis, a former career intelligence professional I follow.

"Our borders no longer exist. Every security service on the planet is sounding the alarm regarding the rising threat of terrorist attacks in the West, and the woman who wants to be President thinks we are being too harsh in our use of terminology."

It would almost be amusing if it were not all so serious.

Joe Biden fled Afghanistan and turned it over to the Taliban. They created what amounts to a terrorist super state. Inside this safe haven radical Islamic terrorist groups are organizing, training, and preparing to unleash hell on the West.

Recently the [Special Operations Association](#) sent a [letter](#) to Congress highlighting the growing danger. Drawing on information obtained from resistance groups in Afghanistan the Association expressed its "profound concern about the deteriorating security situation in Afghanistan and its implications for U.S. national security." The letter went on to highlight these specific concerns:

"1. Imminent Threat to U.S. Security: Afghanistan is once again becoming a breeding ground for terrorist activities aimed at the U.S. The violations of the Doha Agreement have led to the resurgence of multiple terror safe havens. "

"2. Strengthening Terrorist Alliances: The relationship between the Taliban, Al-Qaeda, and ISIS-K has deepened. Inter marriages among members of these groups have created a unified and formidable terrorist network, reminiscent of the alliances formed by key terrorist leaders in the past."

"3. Misuse of Humanitarian Aid: It has been confirmed that over \$40 million in U.S. humanitarian aid is being funneled weekly to the Taliban-controlled Afghan government and corrupt NGOs with known ties to terrorist leaders."

“4. Re-emergence of Terrorist Training Camps: The Taliban’s control has facilitated the establishment of over 20 new terrorist training camps, further entrenching their power and capabilities.”

Ahmad Massoud, leader of the National Resistance Front (NRF), an armed opposition group to the Taliban, has given a number of interviews recently in which he too has sounded the alarm and specifically highlighted his concern that terrorist attacks inside the United States are imminent.

In an [interview](#) with the Daily Mail Online on Monday, April 29, Mr. Massoud [stated](#) that terrorism was “breeding in the vacuum” left by the U.S. withdrawal from Afghanistan in August 2021. He warned that terrorist groups were now intent on striking targets in the U.S. and Europe.

“They are expanding and they’re recruiting. They are recruiting more and more people inside Afghanistan to be foot soldiers for many other terrorist groups,” Mr. Massoud [said](#). “An attack on U.S. or European soil is very much possible now. It is not about a matter of if, it’s a matter of when,” he said.

It is worth noting that Massoud’s father attempted to warn the United States of what was coming prior to 9/11. He was ignored. We all paid the price.

Massoud is hardly alone in his concerns. Recently, General Frank McKenzie, former commander of the US Central Command (CENTCOM), [cautioned](#) that IS-KP has a strong desire to launch attacks on the U.S. and its allies and characterized such attacks as “inevitable.”

Speaking to the Independent, Ali Maisam Nazary, the head of foreign relations for the National Resistance Front in Afghanistan, a group fighting the Taliban, [noted](#):

“The Taliban’s pursuit to build three-four jihadi madrasas in each of Afghanistan’s 400 districts will radicalize and indoctrinate more than a million youth within the next five years if they survive...The return of the Taliban has started the fourth phase of terrorism and jihadism around the globe by emboldening the narrative and giving all terror groups a strategy and optimism that they can defeat or at least bring their enemies to the negotiating table.”

Meanwhile, we continue to receive [reports](#) of individuals with known Islamic terrorist links being detained at the southern border. We have literally no idea how many more have simply walked across without being intercepted. We have no idea where they might be or what they might be planning.

A couple of weeks ago we saw that our Secret Service could not protect Donald Trump against what can only be described as a very low-level threat. A young man with obvious mental problems and a rifle literally

walked right through security and almost succeeded in assassinating the former President of the United States.

Our intelligence and security services have been rendered impotent by the policies of this government. The people that Al Qaida, ISIS-K, and other radical Islamic groups will be sending here or have already sent are not rank amateurs. They are trained. They are committed. They have full sets of false identity documents. They have access to safe houses and casing packages and can likely draw on prepositioned explosives and weapons caches.

They will not bumble around in plain view with a rangefinder almost begging to be arrested. They will exercise patience, plan carefully, and when they attack they will kill perhaps thousands of Americans. They may do so with conventional explosives. Given the open nature of our border they may come with a lot more than just Semtex.

We are out of time. We need to change course quickly or pay the price. Just watch your language.

Kamala wants to make sure we don't hurt anybody's feelings.

"MAGA Communism" is a sinister ruse to empower Russia and its allies at the expense of the West, as revealed by expert Trevor Loudon.

In an exclusive interview hosted by RAIR Foundation USA, Trevor Loudon, a renowned expert on communism and its agents waging destructive attacks on Western civilization, shed light on the infiltration of Russian philosopher Aleksandr Dugin's "multipolarity" ideology into conservative circles in the West.

Dugin's strategy involves sowing deep political divisions within the United States and Europe, exploiting existing tensions to foment civil unrest and chaos. By promoting the concept of "MAGA Communism" and advocating for "multipolarity," Dugin, who wrote "[The Theory of a Multipolar World](#)," published in 2020, seeks to empower the BRICS nations, particularly Russia, at the expense of the West.

As [described](#) by Loudon, multipolarity is “a scam used to turn people against the West by fomenting civil war and unrest in Europe and the United States so that Russia, China, Iran, and their allies can achieve world dominance.”

The true nature of Dugin’s agenda is revealed in his own words, as he has openly called for the destruction of the West, both economically and culturally. His book *Foundations of Geopolitics* is required reading for Russian military personnel and serves as a chilling manifesto for this destructive ideology.

Introduction to Aleksandr Dugin

Aleksandr Dugin “projects” the ideas of Russian military intelligence on “the world’s stage”, says Loudon. Dugin’s early years foreshadowed this calling, perhaps, as his own father, Geliy Aleksandrovich Dugin, was a colonel-general in the GRU (Soviet military intelligence agency).

Dugin, referred to by some as a “Russian philosopher” and the “brain” of Putin, has been hailed as a visionary thinker by many, including [Tucker Carlson](#) and various conservative news outlets. Loudon warns that Dugin’s seemingly grandfatherly demeanor and social conservative views mask a sinister agenda aimed at destroying the West.

Dugin’s goal is to promote deep political divisions in America, as well as Europe, to weaken the West and therefore empower the BRICS nations, and Russia in particular.

To illustrate the true nature of Dugin’s agenda, Loudon [quotes](#) from “Foundations of Geopolitics”:

“It is especially important to introduce geopolitical disorder into internal American activity, encouraging all kinds of separatism and ethnic, social and racial conflicts, actively supporting all dissident movements – extremist, racist, and sectarian groups, thus destabilizing internal political processes in the U.S. It would also make sense simultaneously to support isolationist tendencies in American politics...”

Dugin also promotes the same division in Europe. In the video, RAI Foundation inserted a snippet of Dugin calling for a “civil war” and a “riot” in Europe. The video was taken at the [European Conference on Multipolarity](#), held on September 4, 2023.

In the shocking clip, Dugin declares in part:

‘Not only Ukraine is ruins, but Europe itself is [in] ruins, and I think it is the last call to rebel, to revolt. I think, that in order to reaffirm the European culture, identity and sovereignty, people of Europe need to riot against your illegitimate powers, you need to start civil war in Europe...If you are part of humanity, let start rebellion, if you are part of global elite, prepare yourself to die...’

Dugin’s disciples promote so-called “MAGA Communism” using the concept of “multipolarity.”

MAGA Communism

“MAGA communism” is a term used to describe a form of communism designed to appeal to the same people who are currently part of the MAGA movement. So-called “MAGA communists” are adherents to Aleksandr Dugin’s vision of multipolarity. The most prominent of these MAGA Communist influencers are Jackson Hinkle and Haz Al-Din, although there are many others who have weaseled their way into the MAGA movement.

For those who may dismiss MAGA Communism as a fringe ideology, please note that Jackson Hinkle has [2.7 million followers](#) on X at the time of this writing.

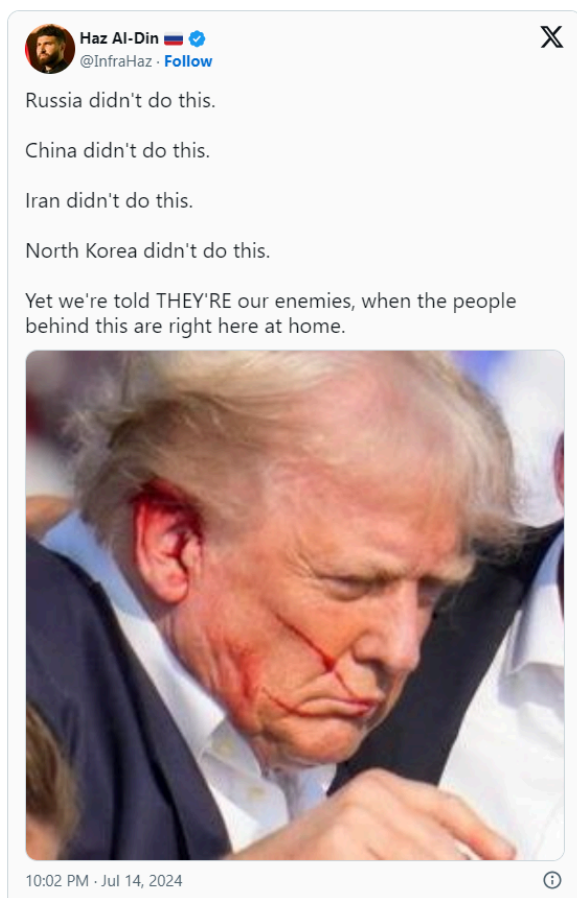

MAGA communism is presented as an antidote to woke communism as promoted by American leftists. However, MAGA communism it is not a return to traditional values and an endorsement of limited government as envisioned by America’s founding fathers. Rather, Loudon explains that MAGA Communism is a new form of masculine, Stalinist communism that is being promoted as an alternative to wokeism.

Consider this quote from MAGA Communist thought leader [Haz Al-Din](#):

...the fertile soil of a communist movement in the US will have as its foundation the same people who are MAGA right now.”

“So, you’ve got this pansy, left-wing ‘woke’ communism, which we all despise,” Trevor explains, which should be defeated by “traditional values, [a foundational] constitutional republic, just building up the economy, purging the education of wokeism”. Instead, MAGA Communism offers “masculine, Stalinist, non-woke communism...”

The goal of MAGA Communism is “all about ultimately sabotaging the MAGA Movement,” Loudon warns. MAGA Communism is essentially swapping one form of communism for another. Both scenarios would be disastrous for America if implemented.

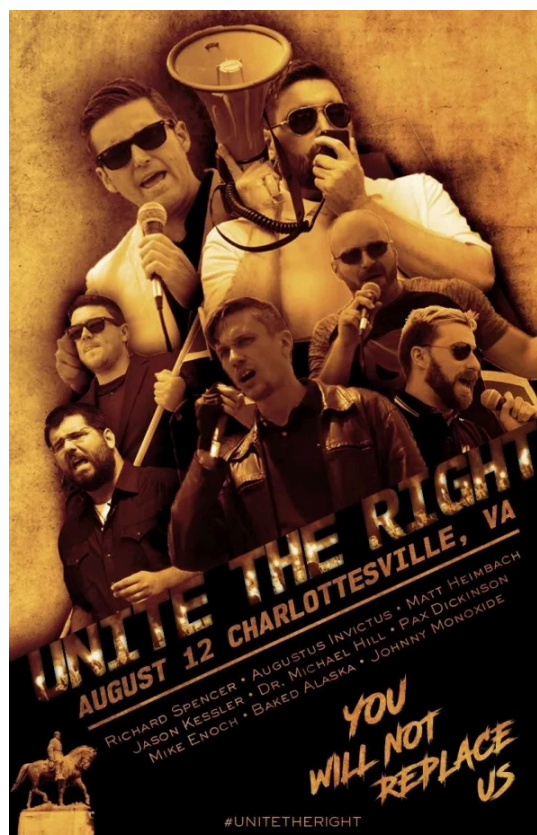

National Bolshevism, the Precursor to MAGA Communism

“Before MAGA, Communism was National Bolshevism,” Loudon explains. Like “multipolarity,” the “Nazbols” or sometimes “Natbols” sought to bring together Nazi and communist elements in the West to undermine and ultimately destroy Western Civilization in the interests of Russia, China, and their Muslim allies.

National Bolshevism, as championed by Dugin, attempted to bridge communists and Nazis by combining communist ideas of worker control with a strong nationalist, even white supremacist, bent. This ideology aims to destroy the West and weaken other major powers, offering a vision of a powerful socialist state to both communists and white nationalists. Dugin appeals to communists by claiming to be the “true” communists while promising white nationalists a vast socialist state encompassing Europe and parts of North America.

Like MAGA Communism, Dugin’s National Bolshevism presented itself as a more traditional, masculine form of communism. This deception has united white supremacist groups like those led by David Duke and Richard Spencer and, more recently, Jackson Hinkle and Haz Al-Din.

Author’s Note: In addition to “multipolarity” and “National Bolshevism”, Dugin has also championed other concepts such as “The Fourth Political Theory” and “Neo-Eurasianism”. The important thing to remember is that Dugin’s political philosophies all advocate for a radical transformation of the so-called world order, with a focus on dismantling the perceived Western dominance, or “hegemony” (also referred to as “unipolarity”) and creating a new “multipolar world”, with Russia having a key role in shaping Europe and Asia.

Charlottesville ‘Unite the Right’ Rally, 2017

Trevor Loudon references the infamous pro-Russia, antisemitic [Unite the Right](#) rally, held on August 11–12, 2017, in Charlottesville, Virginia, where [diagnosed schizophrenic](#) James Alex Fields, Jr. killed left-wing protester Heather Heyer when he rammed his vehicle into a crowd. Notably, Lieutenant H. Jay Cullen, 48, and Trooper-Pilot Berke M. M. Bates, 40, were also killed when their helicopter surveilling the crowd crashed.

This event [served as the basis](#) for Joe Biden’s 2020 presidential campaign. The left has used Charlottesville as a battering ram against President Donald Trump and the MAGA Movement.

As Loudon explains, the “counter-protesters” at the Unite the Right rally included militant left-wing activists from America’s largest Marxist organization, [Democratic Socialists of America](#) (DSA), [Industrial Workers of the World](#), [Workers World Party](#), [Party for Socialism and Liberation](#), [Virginia Defenders](#), [Black Lives Matter](#), [Redneck Revolt](#), the [Revolutionary Communist Party](#) and many others.

Considering the seeming contradiction of many of the pro-Russia communists fighting the pro-Russia “Unite the Right” white supremacists, Loudon explained to RAIR:

“Many of these groups are pro-China and still support Russia. So, you have pro-Russian communists fighting against pro-Russia alt-right groups and fascists, while the MAGA movement and Trump take the blame – which I believe was the intention all along.”

As an interesting side note, the media often [misrepresents](#) President Trump’s remarks about “very fine people” in Charlottesville. In reality, he was referring to the peaceful protesters on both sides, not the extremists. It’s ironic that Joe Biden [praised](#) the radical left “counter-protestors” as “a courageous group of Americans” in his 2019 campaign ad (at the 1:04 mark).

Aleksandr Dugin’s Influence on ‘Unite the Right’

There was significant influence by Aleksandr Dugin's ideas on the infamous "Unite the Right" event, organized in part by the former Ku Klux Klan leader David Duke, who is known for his pro-Russia, and virulently antisemitic views.

[David Duke & Aleksander Duggan admitting to organizing event](#)

According to [Newsweek](#),

"Duke once lived in Moscow and owns an apartment in the Russian capital, which he reportedly sub-let to U.S. Neo-Nazi Preston Wigginton, who has in turn hosted web chats by [Aleksandr] Dugin at the University of Texas A&M college."

"Duke once lived in Moscow and owns an apartment in the Russian capital, which he reportedly sub-let to U.S. Neo-Nazi Preston Wigginton, who has in turn hosted web chats by [Aleksandr] Dugin at the University of Texas A&M college."

The afore-mentioned Preston Wigginton is [connected](#) to David Duke, Aleksandr Dugin, as well as to [Richard Spencer](#), another prominent “Unite the Right” organizer, who coined the term “Alt-Right”.

**DON'T PERMIT COMPROMISED FBI TO
INVESTIGATE TRUMP ASSASSINATION ATTEMPT.**

By Tony Lentini

Too many obvious unanswered questions, too many stupid decisions and justifications, too many inconceivable major failures, too many unidentified gunshots, too many unsecured locations, too many planning “mistakes,” too many denied Secret Service security requests, too many broken protocols, too many historical parallels, too many “existential threat” narratives, too many unprecedented political attacks by government agencies for the event that took place in Butler, Pennsylvania, on July 13 to be anything other than a planned and executed operation by our corrupt government.

At the very least, the attempted assassination of former President Trump was a passive-aggressive move by the powers that be to rig the size, composition, and competence of “Hitler-Trump’s” security detail and then just let nature take its course. That in and of itself would be treasonous and criminal. But I believe it far more likely to have been a Deep-State-sanctioned hit job gone wrong, with Crooks as the patsy and other shooters in other locations quietly slipping away amidst all the confusion.

Our “democracy” depends on a full and open investigation and accounting, but it won’t happen because too many powerful people have far too much to lose, should the truth come out.

If you don't believe government elites are capable of murdering people, think Seth Rich, Jeffrey Epstein, and Ashli Babbitt.

Rich was a young Democratic National Committee (DNC) staffer shot in the back and killed in Washington, D.C., in July 2016 whom many believe was the source of leaked documents showing the DNC favored Hillary Clinton over Bernie Sanders as the party's presidential nominee. Unsolved.

Pedophile and procurer Epstein, who hosted many elites at his U.S. Virgin Islands sexual retreat, was found hanged to death in his cell after prison cameras "malfunctioned" and guards disappeared. Unsolved.

Ashli Babbitt was the unarmed Air Force Veteran shot to death through a door by Capitol Police Lt. Michael Byrd on Jan. 6, 2020. Barely even investigated.

If you don't believe the Democrats and their FBI/Intelligence agency allies are capable of nefarious plots, remember the unpunished FISA lies and abuses that provided the pretext to open sham investigations into Trump supporters so that the Deep State could spy on his administration. Remember the FBI's entrapment of five innocent Americans, later acquitted in a fake scheme to kidnap Michigan Gov. Gretchen Whitmer. Remember Speaker Nancy Pelosi's and D.C. Mayor Muriel Bowser's dismissal of National Guard assistance requested by President Trump on Jan. 6 and the FBI undercover teams and Capitol Police that helped direct election-theft protestors into the Capitol that day in a classic false-flag operation.

And remember all the loose ends and inconsistencies that remain unanswered decades after the assassinations of JFK, MLK, and RFK.

Half the country believes there is much more to the assassination attempt than meets the eye. Having the proven-Trump-hating FBI investigate is like having Himmler's SS investigate the Holocaust. There must be a parallel effort by red-state investigation bureaus with full access to everything. Everything. Otherwise, conspiracy theories will only grow, as they should, under these circumstances and with this government's track record. People's trust in our institutions, already at a low ebb, will continue to erode.

And should another rigged election or assassination occur, it could even precipitate the unthinkable: Civil War.

----- In my
analysis of the Trump assassination attempt. I believe at this time Crooks
was a patsy. I believe based on audio analysis of the shots fired there were
three shooters present in Butler, PA including, Crooks (assassin/Patsy),
countersniper (CS) and an unidentified third shooter. I believe two shooters
were on that roof, one wearing tan shorts, the other wearing khaki pants.

I also believe Crooks may have been shot from behind explaining why his
front teeth were pushed forward and out.

I'm sure there is much more forensic evidence not released and some washed away off the roof via garden hose by FBI personnel, in which I witnessed via recording. At this moment in time all digital evidence of the shooting is being sanitized by social media giants. Google, Facebook and Instagram have erased all signs of commentary, video evidence, photographic evidence as they seek to minimize the fact that this event actually occurred. TO SWAY PUBLIC PERCEPTION. Twitter/X & Patriot Elon Musk thankfully is not performing censorship on the issue, I'm very thankful. They are feeding many many false narratives on social media especially Facebook. They are highly promoting communist Kamala Harris for the Presidential role. MEMORANDUM FOR CONCERNED CITIZENS OF THE UNITED STATES
FROM: RONNY L. JACKSON, MD
FORMER PHYSICIAN TO THE PRESIDENT
SUBJECT: Update on the health of President Donald J. Trump

As the former appointed Physician to the President for President Donald J. Trump, I was naturally very concerned, as was the entire world, about his wellbeing after the assassination attempt on his life. As such, I met him in Bedminster, New Jersey, late that evening to personally check on him, and offer my assistance in any way possible.

I have been with President Trump since that time, and I have evaluated and treated his wound daily. He is doing well. As reported and witnessed by the entire world, he sustained a gunshot wound to the right ear from a high-powered rifle used by the would be assassin.

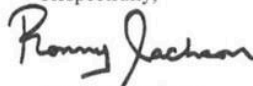

The bullet passed, coming less than a quarter of an inch from entering his head, and struck the top of his right ear. The bullet track produced a 2 cm wide wound that extended down to the cartilaginous surface of the ear. There was initially significant bleeding, followed by marked swelling of the entire upper ear. The swelling has since resolved, and the wound is beginning to granulate and heal properly. Based on the highly vascular nature of the ear, there is still intermittent bleeding requiring a dressing to be in place. Given the broad and blunt nature of the wound itself, no sutures were required.

The President was initially treated by the medical staff at Butler Memorial Hospital in Butler, Pennsylvania, who did an excellent job of evaluating him and treating his wound. I want to thank them for their outstanding care. They provided a thorough evaluation for additional injuries that included a CT of his head. He will have further evaluations, including a comprehensive hearing exam, as needed. He will follow up with his primary care physician, as directed by the doctors that initially evaluated him.

In summary, former President Trump is doing well, and he is recovering as expected from the gunshot wound sustained last Saturday afternoon. I am extremely thankful his life was spared. It is an absolute miracle he wasn't killed.

I am heading to the rally in Grand Rapids, Michigan with President Trump now, and I will remain at his side throughout the weekend to provide any medical assistance he needs. I plan to return to Washington, DC on Monday, and then I will return home to Amarillo, Texas at the conclusion of the week.

Respectfully,

Ronny L. Jackson

Additionally, in opposition to Director Wray's [untruthful](#) comments about Trump's [Gunshot wound](#), while testifying, Deputy director Abbate testified on the contrary that it was a bullet that pierced his right ear and that there's never been a question on that issue. OP ED: Pro Deo et Patria! “For God and Country” – A Clarion Call for National Sanity

By Robert O. Morris - Former Special Forces Officer, Retired CIA Operations Officer

AND MAGAZINE

For so many Americans, the last decade, and especially the past 4 years, has been a period causing severe concern and doubt about the future of our beloved country. During this time period, we have witnessed far too many examples of wide-scale lawlessness, criminality, rioting, political corruption, uncontrolled immigration, and an unbridled movement towards totalitarianism; and, yes, with politicians and bureaucrats enriching themselves despite national security concerns, even suspicion of high treason. This country will not be well-served by a continuation of the status quo, and to state that we need drastic change is clearly an understatement. Our once-respected nation has unfortunately become a laughingstock of the civilized world, and this simply cannot stand.

God provided us with the extreme privilege to live and be nurtured within the greatest country on this planet; accordingly, we should give our all to support the many freedoms we enjoy. And, if necessary, to bear any burden in defense of these privileges. Our

nation is clearly at risk, in so many ways, and unless the current trends are drastically changed, I fear that more serious measures may become necessary. For, either we **surrender** to these unacceptable trends, take steps for like-minded states to implement movements towards **secession** from the nation, or resort to the last, but least desirable, option, which is **sedition**. These are, unfortunately, the options we face, unless drastic changes are implemented as soon as humanly possible.

Ironically, the actions of the New York Supreme Court, consummated on May 30th, to overtly politicize/weaponize the judicial system and to further divide the country along political lines, may very well have been the last straw. The two major political parties in the United States have now become so divided, so completely ostracized, that the bridge across the river which divides us may have been permanently and irreparably destroyed. The die has been officially cast, and Americans are being forced to move into their respective camps, with no audible voice of sanity seemingly being available. So, what comes next? “Surrender” and become subservient to such unacceptable trends? This is highly unlikely! ***Too many American citizens have experienced the evil taste of totalitarianism within their own life experience, or thru those of their ancestors, to willingly surrender to it.***

The concept of “Secession” holds appeal to many, i.e., officially forming into two separate camps of “Red States” and Blue States”, but such a movement would be unviable and untenable, and would bring us inevitably to the horrors of “Sedition”, similar to our Civil War experience of 160 years ago. Such a development would inevitably bring our nation very close to permanent ruin.

The enemies of our nation, both foreign and domestic, revel in the current American dilemma; they salivate over the possibility of dividing the United States into two opposing camps, since this would eliminate their most prominent international

opposition, isolate the USA on the world stage and help to facilitate the emergence of a New World Order, dominated by totalitarian philosophy. As a result, there is only one viable alternative, and, hence, this call for a return to National Sanity. Like-minded people from both opposing camps must strongly unite to identify and vehemently implement the means to save our beloved nation from internal destruction which the continuation of the current trends will inevitably achieve.

So, what do we do, America? Do we surrender to the movement towards one-party totalitarian rule, a la the USSR? Or, do we endeavor to divide our nation via secession into two like-minded camps, and thus destroy our 250 year history, and drastically diminish our legacy? Or, do we give into the ever-present option of sedition and thus relive the horrors of the Civil War? Or, conversely, do we actively seek to put away our grievances and seek national sanity by eliminating once and for all the evil forces which have become too prevalent in our society over recent years, and fervently work together to preserve our constitution and international preeminence?

In the final analysis, the choice falls to every well-intentioned American citizen.

What kind of country do we want for ourselves and for our children?

Are we content with the current realities of political corruption, lawlessness, criminality, rioting, and unencumbered open borders, as well as treasonous activities in support of an international “new world order?” Or, do we have the strength and determination to take a stand, and to work together to weed out the forces of evil which seek to divide and destroy our nation? The choice is ours to make, if, and only if, we can find and sustain the fortitude to do so!

And, we must accomplish this in some haste, before it is too late! The alternative is simply too dangerous and far-too-painful to accept!

May God Bless America!

ONE MORE FACT-And my bone to pick.

Joe Biden's regime left the Afghanistan Taliban 80 billion dollars worth of military equipment (and a base) including Raytheon Thermal Weapons Sites to be reverse engineered by their friend CHINA. The regime also provides (currently) the Taliban and Al Qaeda 40-80 million dollars per month, hand delivered. They are creating new terrorists daily with over 40 training camps, Al-Qaeda not only has safe haven, but also over 50k new foreign terrorists. Incidentally the Hamas terrorists who attacked Israel on Oct 7th were trained in Afghanistan.

If you are a red blooded American. Knowing what you now know after reading this product and you CHOOSE the democratic party. You are literally on the wrong side of history and your vote will be recorded as such. If they have it their way (dem/globalist) we'll all be eating crickets and driving electric cars by 2030-2035. We will all likely be speaking and studying Mandarin and Mao Zedong for history. I hope you take some time to investigate these statements I've made on your own. One of you is a pretty die hard democrat and stubborn. Did you know the Klu Klux Klan were democrats proly still are even though only a handful exist. Haha
